

Action Plan

2019

To work together

Administrative Framework

Focus Areas

A

PROMOTING ARCHITECTS & ARCHITECTURE

B

PROFESSIONAL DEVELOPMENT

C

MEMBERSHIP & SERVICES

D

ENGAGEMENT WITH PUBLIC & STAKEHOLDERS

E

EDUCATION & RESEARCH

1

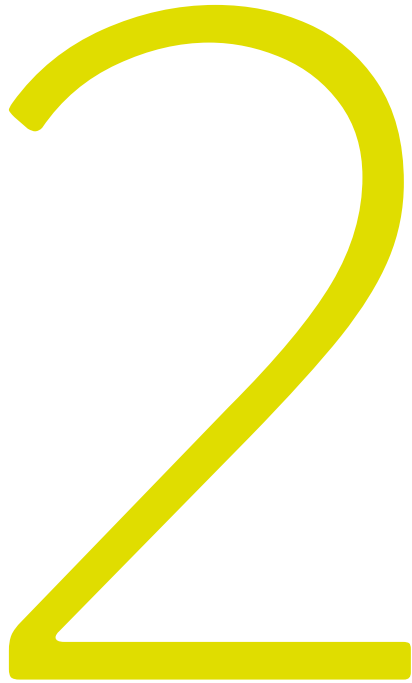

Improve & increase resources and benefits for members

AAM will improve resources and benefits available for members by hosting regular events for greater member engagement.

Planned events and initiatives include

AAM Talks, AAM Visits, AAM+, AAM Salla, Consultations, as well as an annual 'Festival' to showcase the local architecture industry.

A B C D E

Engage & collaborate with stakeholders and the public

AAM will aim to establish better links and connections with local and international bodies & stakeholders, as well as the public.

We will also aim engage with students and education providers, and to provide resources for the public (eg: client checklists) to help understand the value of the work of architects.

Working to improve our professional working environment

AAM will work with stakeholders to improve our professional working environment. Platforms such as AAM Comments will aim to collect the concerns of members working in the industry and facilitate ways for those concerns to be heard by stakeholders. Such platforms will assist in collecting and working to resolve issues in a more structured fashion.

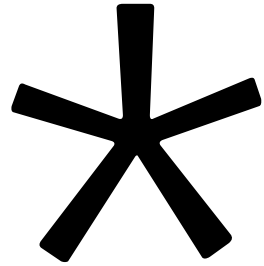

4

Strengthening the structure of the association

AAM will work to strengthen and improve the structure of the organisation. A Standard Operating Procedure will be prepared with member consultation, alongside forming member Working Groups to manage association activities, tasks and special issues.

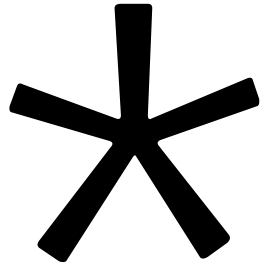

A B C D E

Festival

ANNUAL EVENT

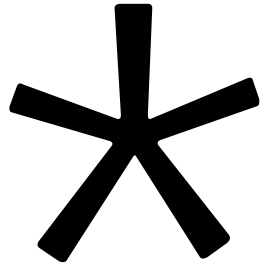

A proposed annual event to showcase the local architecture industry. The event will aim to increase exposure, recognition and interaction within the local professional community as well as be a showcase of the local architecture industry to the public.

AAM Talks

MONTHLY EVENT

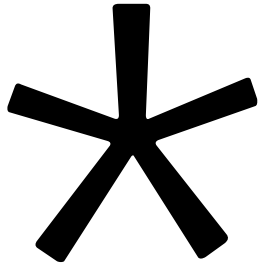

An ongoing initiative that has been held successfully over the past five months to great reception. AAM Talks is a public lecture series held every month which aims to foster awareness and appreciation of architecture and the built environment within related professions as well as the public. Speakers are selected from the wide range of fields in the built environment professions.

AAM Visits

EVERY OTHER MONTH

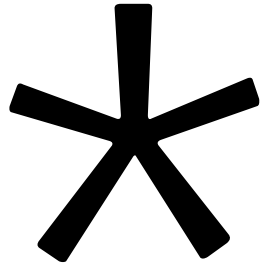

AAM Visits are walking tours and visits hosted by AAM to both local and foreign architectural work. Visits can be scheduled for ongoing projects, as well as built work, led by the architects/practice that produced the work. It aims to increase exposure, and learn from built environment professionals on architectural work.

AAM+

EVENT HELD AS REQUIRED

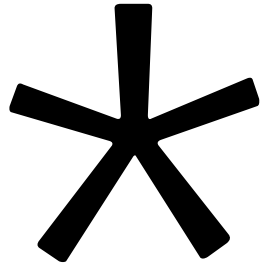

AAM+ is a flexible event that can accommodate events ranging from, but not limited to, Screenings, Lectures, Workshops, Book Launches, Visiting International Speakers and more.

AAM Salla

EVENT HELD AS REQUIRED

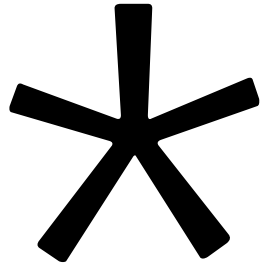

AAM Salla's are casual gatherings held to discuss topics and issues relevant to architects as well as our wider industry. Salla's do not have a defined structure and are open for any and all topics.

Consultations

EVENT HELD AS REQUIRED

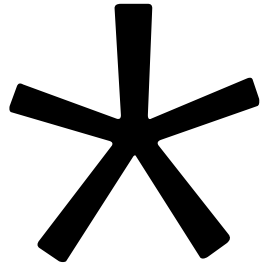

Consultations are formal sessions that are held with members to discuss and debate current issues within the industry. The goal of consultations is to find common ground between members and come to a consensus on solutions for common issues.

Comments

ONLINE PLATFORM

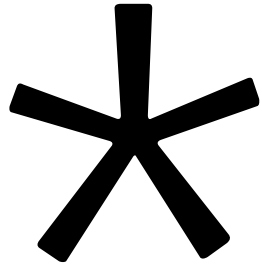

A platform to collect member concerns within the industry and present them collectively to relevant authorities & stakeholders. Issues can vary from concerns related to any industry-relevant issue. Collected comments will be reviewed every other month and put forward for member discussion, prioritisation and processing through dedicated working groups.

Competitions

AS THEY COME

AAM will aim to host and increase the number of local architecture competitions as a means to source good design from many options. It will also aim to be a platform to give exposure to younger designers & firms within our local industry, and help develop a architecture competition culture within the Maldives.

Publications

AAM REPORTS, DOCUMENTS, TRENDS ETC

AAM will aim to create a platform to prepare and publish documents related to the local industry as well as the association. This will aim to improve and increase the amount of information and data available on the local architecture industry. Examples include Reports detailing local industry trends, salary surveys & future trends, as well as AAM Papers produced by member consultations.
